

The screenshot shows the Intel FPGA Starter Edition 2020.1 interface. The top window displays the 'Wave' view for a simulation of 'testbench.vhd'. The 'Processes (Active)' window shows 'line_38' as the active process. The bottom window shows the 'Transcript' with the following text: 'Error: Simulation finished', 'Time: 3040 ns Iteration: 0 Process: /th_cpu/line_38 File: C:/Users/Devif/Downloads/kke/rs_cpu/testbench.vhd', 'Break in Process line_38 at C:/Users/Devif/Downloads/kke/rs_cpu/testbench.vhd line 47'. The status bar at the bottom indicates 'Now: 3.040 ns Delta: 0' and 'sim/rs_cpu/line_38'.
